

- DRUM KIT – SONOR DESIGNER (20/8/10/12/14)

BASS

self-contained amplifier, OR an amplifier head and speaker combination.

1st choice: Ampeg SVT line of amplifiers.

2nd choice: Polytone Brute (**not** the Mini-Brute)...

3rd choice: Eden, SWR or Mesa-Boogie
or any professional quality amplifier with EQ possibilities.

For the speakers, specifically:

A cabinet containing JBL, Hartke, Eden, Bose, or Electro-Voice speakers is preferred. A cabinet w/ 2 12" speakers is ideal, but any cabinet is acceptable as long as it does not have 15" speakers within....these are too large for the acoustic bass.

TRUMPET

AKG414, Neumann TLM170 microphones preferred

Piano

Grand Piano must be provided and tuned on the day of the performance.

- Monitor speakers for each musician must be provided.
